Demo video: <label> · Other material: <label>

Abstract. <Problem in one sentence. What you built. How the pieces fit. Key **bold** results with numbers, e.g. "all N missions succeed, M tests pass".>

1 System Architecture and Data Flow

Figure placeholder: `architecture.png`

Figure 1: <Caption. Can mention a check, e.g. `test_name`.>

<Sequence title> (Fig. 1): (1) <Step one>. (2) <Step two>. (3) <Step three>.

2 <Component A>

<Intro paragraph with **key terms** in bold.> Decisions:

- **<Decision 1>:** <explanation>.
- **<Decision 2>:** <rule, e.g. battery $< 1.3 \times \text{cost} + 15$>.
- **<Decision 3>:** <explanation>.

Figure placeholder: `<figure>.png`

Figure 2: <Caption>.

3 <Component B>

<Col 1>	**<Col 2 (wraps)>**	**<Col 3>**
<Row>	<Long description → hardware part>	<value>
<Row>	<Long description>	<value>

<Paragraph after the table, with results in **bold**, e.g. coverage 100 %.>

4 <Component C>

Figure placeholder: `<figure>.png`

Figure 3: <Caption>.

<Topic>. <Explanation. Inline formula: $c(t) = \frac{a}{b} e^{-t/\tau}$.>

<A>	<B>	<C>	<D>
<x>	<x>	<x>	<x>
<x>	<x>	<x>	<x>

Table 1: <Caption>.

5 <Method / Contribution>

<Setup>. <Explanation>:

$$< equation1 >, \quad < equation2 >, \quad < equation3 > .$$

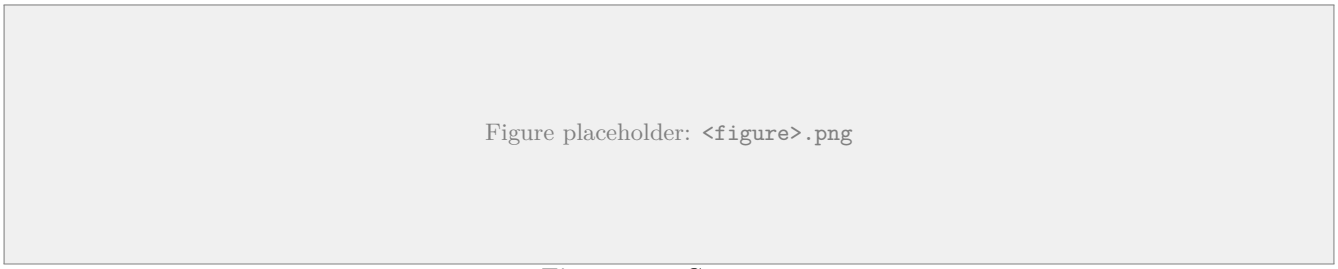

Figure 4: <Caption>.

Worked example: <inputs> ⇒ <result> (unit-tested).

<Contribution name> (our contribution). <What it does and the measured result.>

<Metric>	mean	max
<Baseline>	<v>	<v>
<Ours>	**<v>**	**<v>**
<Alternative>	<note spanning two columns>	

<Interpretation of the table.>

6 <Component D>

<One dense paragraph. Use **bold** for key actions and *italics* for defined terms.>

7 Simulation Demo and Results

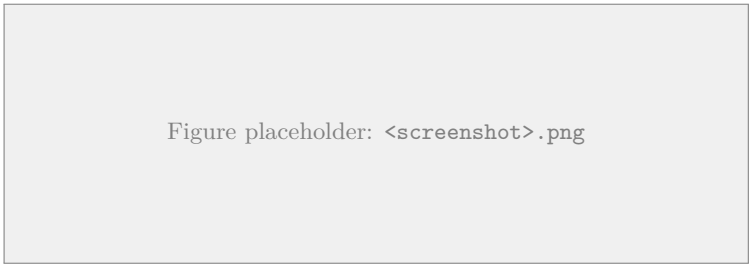

Figure 5: <Caption>.

Metric	Value
<metric>	<value>
<metric>	<value>
Tests	<n>/<n> pass

Table 2: <Caption>.

Run with `<command>` (options `<flags>`).

8 Failure Cases

Failure	**Detection**	**Response**	**Simulated**
<failure>	<how detected>	<response>	✓ <result>
<failure>	<how detected>	<response>	design

9 Implementation Plan (Phase 2) and Innovation

Weeks (2026)	Milestone
<dates>	<milestone>
<dates>	<milestone>

Bill of materials: about <amount> TND (<items>). Details in `<file>`.

Innovation

- <Point with **bold key phrase**>.
- <Point>.
- <Point>.
